MINDSET

SPEAKER - PETER VAN KETS

TO INSPIRE A CULTURE THAT CREATES RESILIENCE AS ITS CORE DNA

"2023 was a tough year for most and without doubt this year is going to up the ante considerably. South Africans are facing their own unique set of challenges (from many sides) particularly from a socio-economic and political perspective.

More than ever our world is evolving at an exponential rate. The business landscape, traditional leadership models and our approaches to life may no longer be sufficient to navigate the challenges and seize the opportunities that lie ahead.

To embrace the challenges of this dynamic & super competitive environment, we need people, teams and leaders who embody a mindset of exploration, adaptability, resilience and endurance—a mindset we call "The Explorer Mindset." My new keynote for 2024.

During this keynote, using real-life, edge-of-your-seat stories from my expeditions, we will embark on an immersive journey of self-discovery, acquiring the essential mindset skills and knowledge necessary to embrace (calculated) risk, to push boundaries, to excel in today's complex landscape and to lead our organisations into a prosperous future."
